

INSTALLATION GUIDE

DRAWER SYSTEM - WING KITS

- Ironman 4x4 Wing Kits are designed to fit Ironman 4x4 Drawer Systems and are vehicle specific.

IMPORTANT: Please read and fully understand these fitting instructions prior to installing your Ironman 4x4 Wing Kit.

1. Make sure your Ironman 4x4 Wing Kit is compatible with your drawer system and your vehicle.

2. With drawer tops removed from drawer system, attach right and left front panels as shown.

3. Attach centre and rear brackets as shown.

Note: Folded section of brackets must face each other as shown.

4. Refit drawer tops to drawer system.

5. Attach tops to brackets and front panels using hardware provided.

6. Place strengthening brackets in position as shown against side of drawer frame under thin section of top panel.

Secure in position using M6 countersunk screws provided.

If drawer system has no mounting holes for the strengthening bracket, holes will need to be marked and drilled using a 6.5mm drill bit.

7. Sit storage compartment covers in position.
